DETAILED ACTION

After further consideration the indicated allowability of the claims is withdrawn, see rejection below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3, 6-7, 10, and 12-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 includes the limitation, 'the inner core has an outer diameter of about 1.45 to 1.55'. However, the lower limit of 1.45 inches was added in an amendment filed 6-1-05, which constitutes new subject matter. The location of the support provided by applicant is not in the specification.
